# Level 2 Changing Rooms Plan

Ellerslie CC Level 2 Match Day Changing Room Management Plan

## Background

The Ellerslie Changing Room Block consists of 7 changing rooms. 2 of these are large, 4 are small, and 1 is dedicated to match day officials. To access the changing rooms used by playing teams, there are doors at each end of the building. The design of the Changing Room Block allows for the separation of these changing rooms, with the Club being able to split the block in half. The room for the match day officials is accessed through the side of the building.

## COVID 19 Level 2 Game Day Changing Room Management

To ensure that there is minimal contact between teams throughout the course of a match, under Alert Level 2, the changing rooms will be split down the middle, with the visiting team occupying the large changing room on the far side of the building, and the home team occupying the large changing room on the near side of the building. The umpires will remain segregated as usual, with access to their room through the side door.

COVID 19 'Sign In' notices will be accessible at either end of the building, as well as the umpires changing room. These will be placed close to the changing rooms to prevent unnecessary movement.

The away team will be able to access toilet facilities within the changing room, while the umpires and the home team will be able to access the facilities on the outside of the building.
